

FDA ADVISORY
No. **20250368**

TO : ALL FDA CLIENTS AND STAKEHOLDERS AND THE GENERAL PUBLIC

SUBJECT: OPERATING PERIODS OF FDA EPORTAL

The Food and Drug Administration (FDA) is currently undergoing system maintenance and upgrades to enhance our online services and facilitate the migration of ePortal processes to eServices. We understand that this may cause some inconvenience, but these improvements are essential to ensure a more efficient and seamless transaction for all users.

Additionally, starting Saturday, 22 March 2025, FDA eportal will only be accessible from Monday to Friday (24/7), excluding weekends, official public holidays, declared holidays, and work suspensions.

We appreciate your patience and understanding as we work towards providing a more efficient and reliable system. Rest assured that the FDA remains committed to ensure safe, effective, and high-quality health products for all Filipinos.

For everyone's information and guidance.

DR. SAMUEL A. ZACATE
Director General
